Our OneERP Program: Transformation the Future for All of QuidelOrtho

FALSE

OneERP... is just an IT project.

TRUE

OneERP...is a business project that is enabled by IT.

What Is Our OneERP Program?

OneERP Program is a global initiative to implement cutting-edge solutions, including ARIBA, Advanced Planning Optimization (APO), Global Trade Services (GTS), and SAP S/4HANA. This powerful new platform will replace our current tools—LN, JDE, SAP FIT, and SAP Mars—ushering in a new era of efficiency and innovation.

This transformation offers a unique opportunity to:

- standardize and elevate our business processes
- optimize data structures
- enable smarter, more informed decision-making across the organization.

OneERP delivers enterprise-wide value by streamlining the integration of new acquisitions into a unified global platform for processes and technology, supporting seamless scalability and growth.

Why Our OneERP Program Matters...

QuidelOrtho's independent ERP systems slow decisions and limits innovation. OneERP aims to **streamline five systems** into one SAP S/4HANA platform, providing **real-time data, simplified processes** and **advanced tools**. With OneERP, we will operate as a **unified** and **future-ready** organization, equipped to deliver value to patients and clinicians worldwide.

ERP System Integration Groups – Who Is Impacted by OneERP?

Benefits by Business Area

OneERP

One System, One Process, One Team: The One ERP Edge

Quality, Regulatory & Compliance

- ✓ **Simplified Systems:**
Consolidating 5 ERPs into OneERP
- ✓ **Standardized Business Processes:**
Streamlined global operations and internal controls
- ✓ **Accelerated Productivity:** user-friendly interface, reduced training & faster onboarding
- ✓ **Visibility to KPIs**

Commercial

- ✓ **Streamlined Orders:** Single source for all order processes
- ✓ **Efficiency:** automation of holds & blocks
- ✓ **Improved Customer Visibility:** Quantum integration for personalized insights and enhanced notifications
- ✓ **Harmonized global processes** leveraging standard ERP capabilities
- ✓ **Scalability** of solution for future upgrades

Sourcing & Procurement

- ✓ **Common Purchasing Processes:** Improved compliance, spend visibility
- ✓ **Improved end-to-end order management** for communication and collaboration with suppliers
- ✓ **Reduction of manual activities**
- ✓ **Increased spend visibility** for future sourcing

Finance

- ✓ **Automated financial activities:** streamlined operations, invoice processing, and reporting
- ✓ **Improved visibility:** Business insights at product level through enhanced reporting & analytics
- ✓ **Tax Savings:** Centralization of sales entities

Operations / Manufacturing & Planning

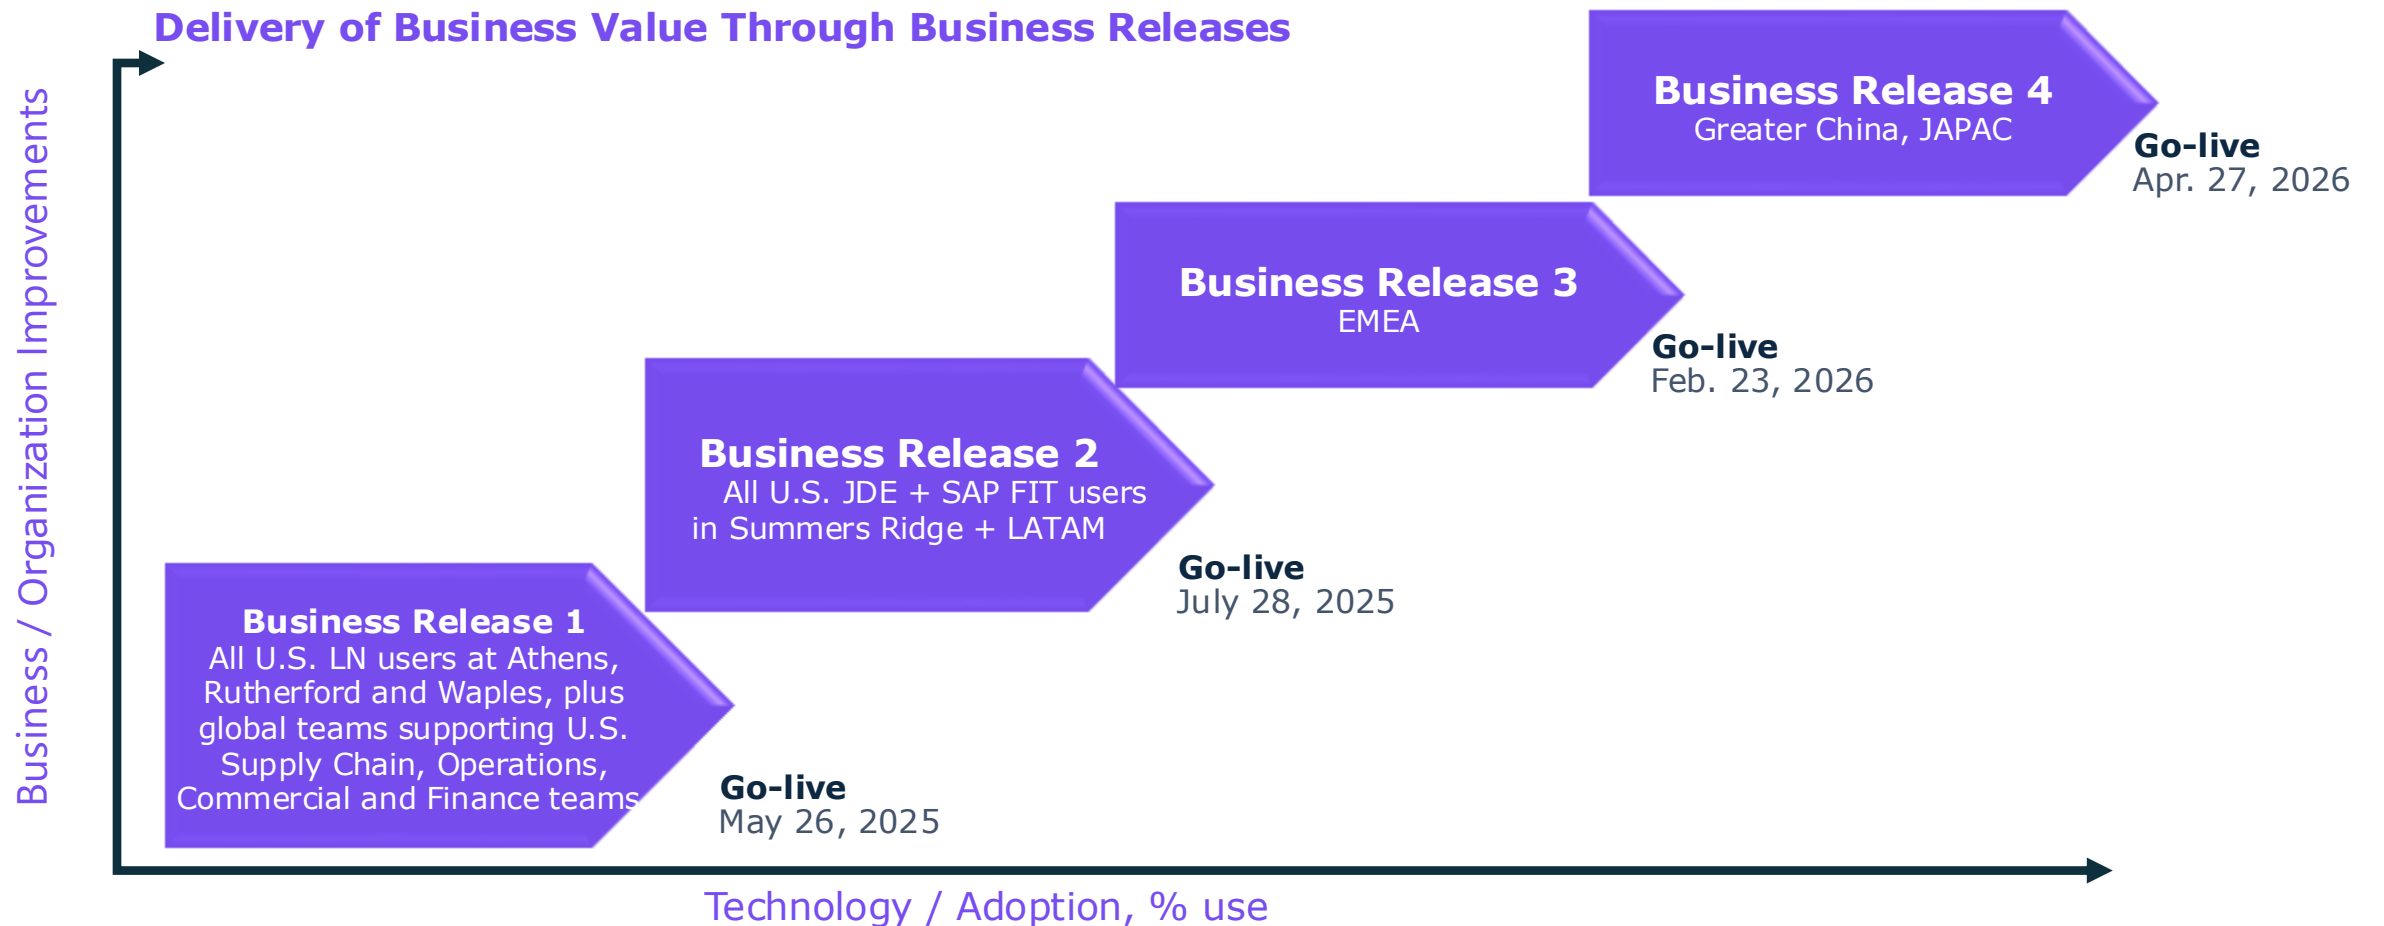

- ✓ **Improved Planning Processes:** ROP planning for Spares, Shelf-Life Planning, Capacity Planning
- ✓ **Leveraging Manufacturing Capabilities:** Quality Inspections, Manufacture at-risk
- ✓ **Single source of truth** for master and transaction data
- ✓ **Reduction of manual scheduling and planning processes**

Warehousing

- ✓ **Integration Distribution & Warehousing:** Eliminating SO/PO complexities by leveraging STOs, Global Inventory management in common system
- ✓ **Additional integrations** with 3PL warehouses
- ✓ **Single source of truth** for inbound and outbound processes
- ✓ **Standardized labelling processes**
- ✓ **Visibility into site analytics**

What Are Business Releases?

A business release is a set of focused, integrated actions and changes that allow the system to be get up and running as rapidly as possible so the business and employees can start using the system. We are rolling out four Business Releases:

How We Support You Through The Change

QuidelOrtho is investing in not only the new business process and tools, but we also want to **make sure our team members are supported throughout this journey**. We've incorporated Organizational Change Management (OCM) into the program, to help support understanding of what this change means, provide training and communications to both our impacted QuidelOrtho employees and our external partners.

OCM Objectives

1. **Proactively manage** the speed, adoption, and sustainment of business transformation
2. Create **visibility, transparency and clear messaging** around the transformation
3. Engage the **right people at the right time to champion and reinforce** the change
4. Minimize business disruption to **maintain productivity and customer service**

OCM Approach

1 Holistic Approach:
Customized messaging based on variations in stakeholder groups /geographies

2 Strategic Alignment:
Management buy-in and top-down communication

3 End-User Focus:
Increased emphasis on the 'WIIFM' message to promote adoption and sustainment of change

How is Change Management Successful?

Change Management is proven to increase the likelihood of successful business solutions and new capability implementations.

Assess

Understand and verify the need for change.

Plan

Sequence activities into change management plan

Execute

Engage organization into executing the change management plan

Sustain

Reinforce outcomes, build resiliency and maintain a change culture

Key activities for each phase may include:

- | | | | |
|--|--|--|---|
| <ul style="list-style-type: none"> • <i>Align on goals and define success</i> • <i>Align on Organizational Change Management Strategy</i> • <i>Stakeholder Interview & Assessment</i> • <i>Determine external vendor needs</i> | <ul style="list-style-type: none"> • <i>Change Management Plan</i> • <i>Change Impact Assessment</i> • <i>Change Readiness Survey</i> • <i>Training Needs Assessment</i> | <ul style="list-style-type: none"> • <i>Business Readiness checklists</i> • <i>Develop Training Curriculum</i> • <i>Go-Live comms</i> • <i>End User Training</i> | <ul style="list-style-type: none"> • <i>Go-Live comms</i> • <i>Hypercare / Ongoing support</i> • <i>Adoption metrics</i> |
|--|--|--|---|

We All Have A Role In Making Change Successful

For this program's success, we are all 'ONE Team' and have a role in making this change successful

1. We Are All Change Advocates

Promoting the change and the value it will have to QuidelOrtho.

3. You're Part of the Extended Team

It's important to be positive about the program, highlight the benefits and if you hear concerns, bring them up to the team, we are here to help!

2. Approach Interactions with Positive Intent

Assuming positive intent fosters trust.

4. Provide Constructive Feedback

Transparent feedback helps everyone grow and succeed together.

Re-Introducing OneERP: “New Year, New Era of Work” Campaign

In 2025, we're relaunching OneERP with a renewed focus through the "New Year, New Era of Work" communications campaign.

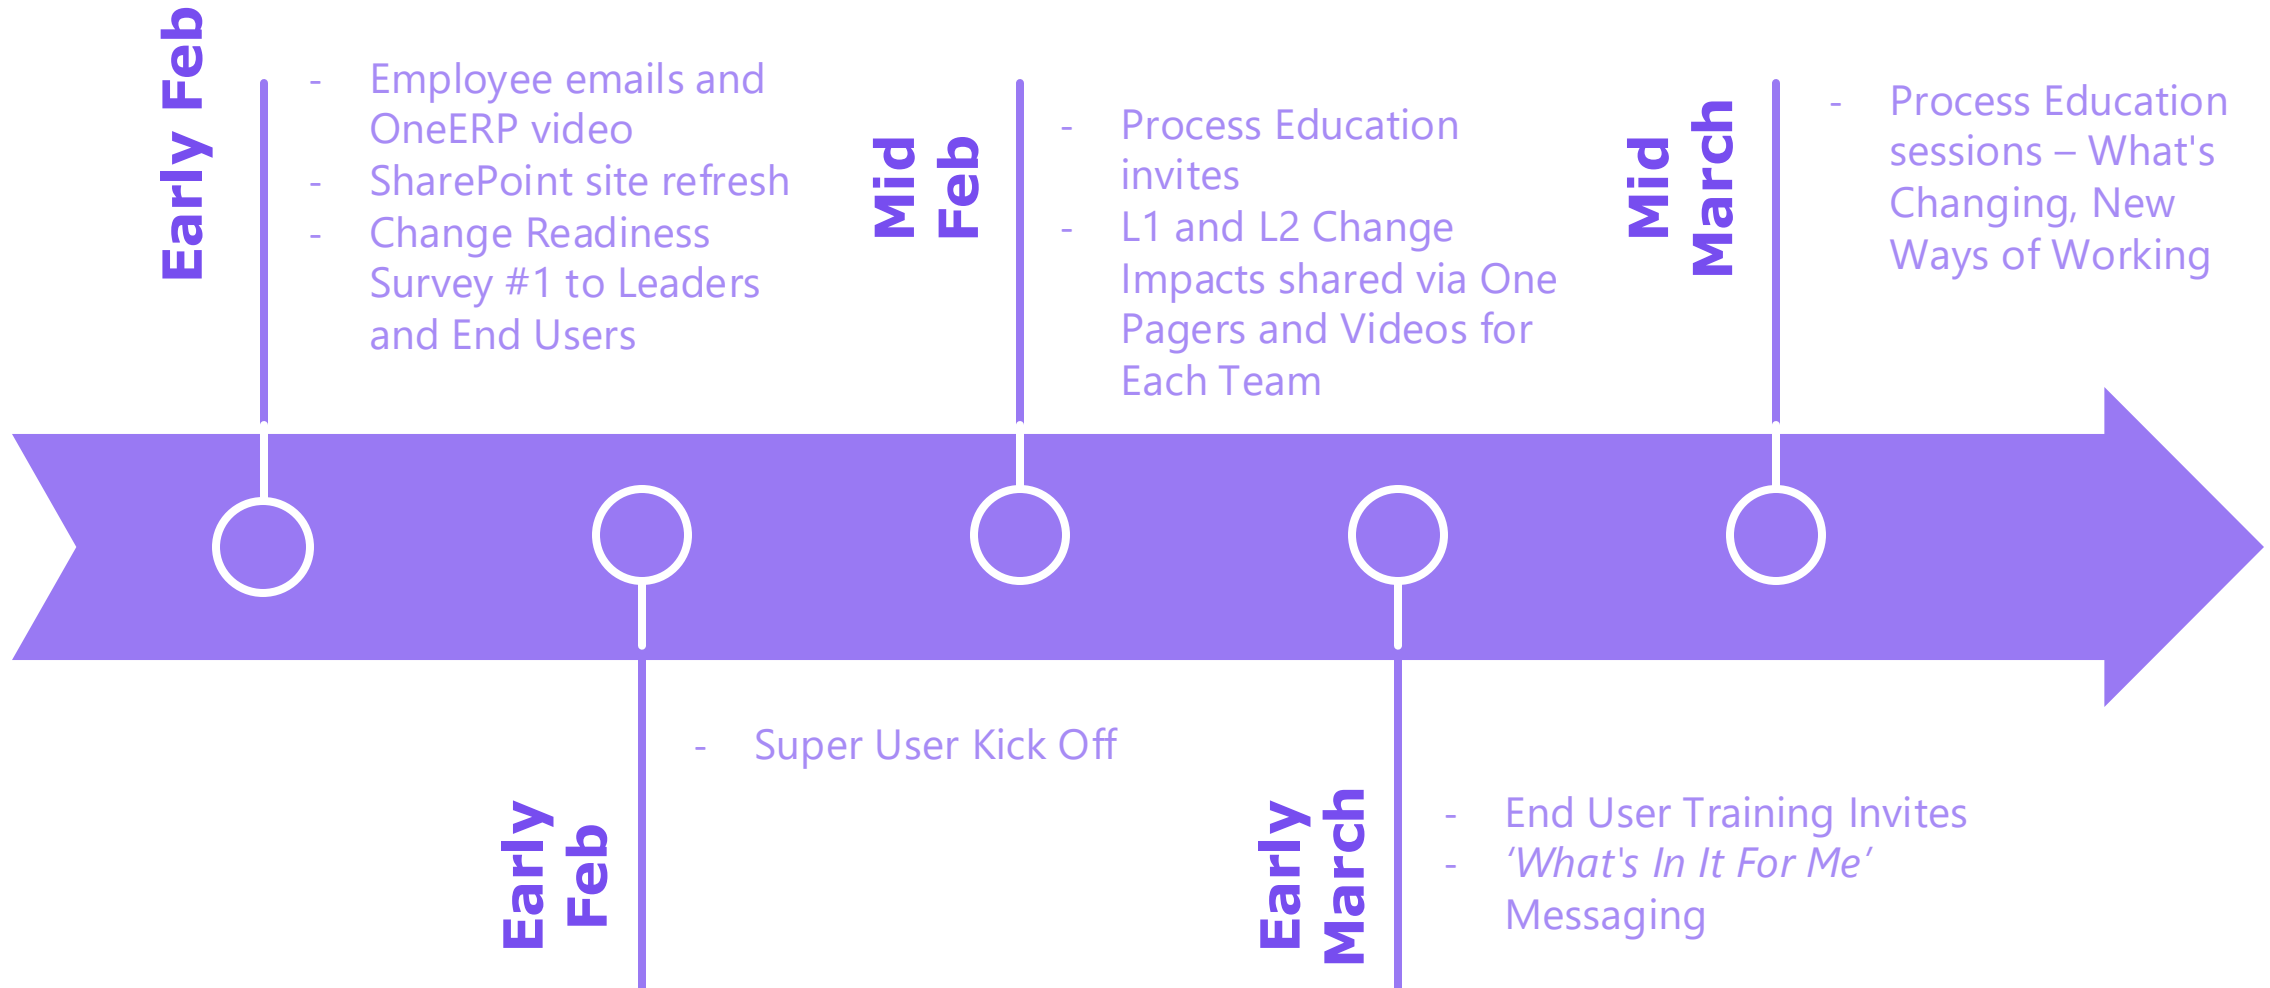

Effective Communications to Employees is Essential for:

- **Boosting Employee Engagement:** Drive awareness and understanding, ensuring everyone is informed and aligned.
- **Facilitating a Smooth Transition:** Highlight the goals and benefits of OneERP, helping QuidelOrtho adopt a future-focused approach.
- **Reinforcing Business Transformation:** Emphasize OneERP's role in driving growth and supporting our ongoing transformation.

Communications Overview – Next 60 Days

Impacted employees will start receiving awareness messages regarding OneERP starting in late January/ early February.

OneERP 2025 Campaign

New Year, New Era of Work

Refresh Communications Look & Feel

Build Knowledge of the Program and Benefits

Increase Message Consistency & Transparency

OneERP Program Overview Video with Flyers and Monitor Messaging

Overview video of the OneERP program, how it impacts QO and the high-level details of the program initiatives. Awareness messaging via posters and TV monitor messaging.

New & Refreshed FAQs

A comprehensive and updated FAQ section addressing common questions and concerns about OneERP to keep employees informed and engaged.

OneERP Program SharePoint Refresh

An updated OneERP SharePoint sites for both employees and project team with streamlined navigation, new resources and a modern design to enhance user experience and access to key OneERP information.
